Benjo Terrado

has successfully completed the online, non-credit Specialization

Medical Office Procedures and Administration Fundamentals

Medical Office Procedures and Administration Fundamentals is designed to provide students with a solid foundation in the essential administrative tasks required for smooth operation in a medical office. Topics include patient scheduling, medical billing and coding, managing patient records, and understanding the role of healthcare regulations, such as HIPAA, in maintaining confidentiality and compliance. By the end of the course, students will have developed the practical skills and knowledge to effectively manage daily office operations, coordinate patient care, and support healthcare providers in a variety of medical settings.
